

Scoutbook Plus is moving away from connections-based permissions and moving toward position-based permissions, which will provide greater performance and permission customization.

BACKGROUND

In Scoutbook Legacy, permission options are limited to “Full Control, View Profile, Edit Profile, View Advancement, Edit Advancement”.

If a leader has the position of Scoutmaster or Troop Admin, their connection is “Full Control” for every youth in the unit, which enables the leader to edit advancement, edit profiles, etc.

However, for other positions such as Secretary or Outdoor Coordinator, connection options were limited and did not translate well to the permissions needed to perform the duties of the position. This results in leaders who are given connection based permissions that are beyond or far less than what they should have as it relates to their position.

WHAT'S NEW

In Scoutbook Plus, a unit can actively change most registered positions (and functional positions) for adults in their unit. For example, a Chartered Organization Representative may now move an adult's registration from Committee Member registration to Assistant Scoutmaster in Scoutbook Plus. Previously, this action could only be performed in My.Scouting.

When assigning leaders to registered or functional positions, these positions will have a base set of permissions, which allows the leader to perform their duties across the full unit or sub-unit.

In addition, leaders may customize and add additional permissions associated. (So, if a leader is Troop Secretary but also helps out recording advancement, the unit can assign the “Advancement Editor including Youth leadership” permission to perform the additional duty.)

Default permissions assigned to positions have been determined by the Guide to Advancement and generally accepted position functionality. Some permissions may only be granted based on position (i.e. approving adults to serve as leaders is restricted to Chartered Organization Rep, COR/CUR Delegate, and/or Council Unit Representative) while many can be assigned to the individual.

Scenarios:

In some units, Advancement Chairs only help with advancement completion recording. While others have advancement chairs purchasing advancement or also recording approval.

Some units want all ASM's doing the exact same jobs across the unit. Some do not.

Scoutbook Plus provides the unit the ability to balance permissions that must be associated with certain positions while providing flexibility to customize for their unit.

Please note:

Some permissions can be granted to youth such as conduct calendar editing, messaging (coming soon), advancement recording (Scout, Tenderfoot, Second Class, First Class for in Troop)

Individual Permissions

Individual Permissions grant one action to users.
Registered or Functional Positions give a Group of Permissions to the user.

Permission Category	Permission Name	Actions given
Activity - <i>Logs</i>	Create/Remove/Edit/Approve	Deal with Activity Logs
Advancement -	Award Approve Edit MBC Search	Enter Awarded for an item Edit/Approve an Advancement item Enter a Date or Comment for an Advancement item Search for an MBC
Calendar -	Create/Edit/Remove	Enter/Edit Calendar info for Unit
Finance - <i>Payment Log</i>	Unit Payment Log Create/Edit Indiv. Payment Log Create/Edit P.O. Create/Edit	Deal with Payment Log at a Whole Unit Levels Deal with Payment Log at an Individual Level Create POs to use to purchase Advancements
Messaging -	Message Create	Compose and Send Messages
Unit -	Profile Edit Unit Edit Reports Sub-unit Create/Remove Sub-unit Edit	Edit individual profile information and add relationships Edit Timezone, Add online payment functionality for users Run Reports (all have this to some degree) Add/Delete Sub-units Edit Members of a Sub-unit
Leadership / Membership	These groups are isolated to Key 3, Key 3 Delegates and COR Delegates. Deals with official membership
